## Regulations on Ocean Pollution Treatment in Taipei Harbor

Promulgated in accordance with Letter Reference Pei-Kang-Hang-Tzu No. 2339 on Sep. 12, 2001

#### **I** Basis

Marine Pollution Control Act, Commercial Port Act, Governing Rules On Port Services At International Commercial Ports, Regulations on Ocean Pollution Management, The Procedure For an Emergency Response Center in Taipei Harbor.

## □ Purposes

To protect the ecological environment of Taipei Harbor (hereinafter called this Harbor), prevent harbor equipment and facilities from water pollution damage and ensure harbor safety.

### **Ⅲ** Scope

Includes ships' emission, spills, oil leakage, wastewater or other treatment of harmful substances.

## IV Responsibilities of the Unit Receiving Information on Incidents

(I) After being advised of an occurrence of marine oil pollution, we are required to submit relevant documents, such as the Ocean Pollution and Disaster Notification System provided in Annex I, Receiving Units and Telephone Numbers provided in Annex II, Marine Oil Pollution Report provided in Annex III and Disaster Report of

Taipei Harbor Branch provided in Annex IV, to the Environmental Protection Administration, Executive Yuan and Coastal Guard Administration, Executive Yuan.

(II) After setting up the Emergency Response Center, staff should gain control of the pollution situation as soon as possible and fill in a solution report and fax it to the Department of Water Quality, Environmental Protection Administration, Executive Yuan. The Return Form is available in Annex V

#### V Methods and Measures

- (I) Receiving a harbor pollution disaster report:
- Office Hours:
  - (1) Upon receiving a report of pollution by oil, wastewater or other harmful substances in this harbor, the Marine and Harbor Management Section must inform the ship causing the pollution to take emergency measures.
  - (2) Organize an emergency response center depending on the amount of pollution.
  - (3) Tell the shipowners or shipping agents, depending on the wind and weather of the marine areas polluted, to consign a non-governmental salvage engineering company to get rid of the oil, arrange for prevention facilities, such as oil booms, oil absorbers, oil sponges and take other emergency measures.
  - (4) Clear away the pollution or request Formosa Petrochemical Co. and the Chinese Petroleum Corporation to send personnel and provide pollution control equipment.
  - (5) Request the Environmental Protection Office, Keelung Harbor Bureau to send, as soon as possible, personnel and provide patrol boats and pollution control

- equipment, if it is a major oil pollution emergency.
- (6) Assign the Emergency Response Unit under the instruction of officers and instruct the neighboring ships to move away if it is necessary.
- (7) Coordinate the policemen of the Taipei Branch, Keelung Harbor Police Station and officers of the Marine and Harbor Management Section to investigate the accident.
- (8) The field response units should appoint one person to report progress to the emergency response center and other relevant organizations.

# <sup>2.</sup> Off-duty Hours:

- (1) Upon receiving a report of an oil pollution accident, the duty officer of Taipei Harbor Radio Station should report it to the organizations responsible in accordance with The Procedure for an Emergency Response Center in Taipei Harbor.
- (2) The procedure for an emergency is as same as that during the office hours.
- (3) Assign personnel to give assistance depending on the actual situation.
- (II) Upon receiving a report of an ocean pollution disaster not occurring in this harbor:

#### 1. Office Hours:

- (1) After being informed the location of the ship responsible, scope of the disaster, possibly affected areas and reasons, Taipei Harbor Radio Station should report it to the Marine and Harbor Management Section.
- (2) An emergency response center should be organized depending on the amount of pollution and the following measures taken:
  - a. Report the incident to the Keelung Harbor Bureau

- b. Inform the responsible organizations in accordance with the Emergency Notification System.
- c. Inform the Coast Guard Administration to restrict any movement necessary, search, transfer and take other necessary measures.
- d. Release a navigation bulletin.
- e. Advise the Harbor Radio Station to inform ships passing by to be careful and keep away from the polluted areas.
- (3) If a major oil leakage threatens harbor safety or cause great damage to coastal ecology, the Emergency Response Center must report it to the Major Marine Pollution Emergency Response Task Force, Executive Yuan and organize the Major Marine Oil Pollution Emergency Response Center to deal with such an accident.

### 2. Off-duty Hours:

- (4) Upon receiving a report of an oil pollution accident, the duty officer of Taipei Harbor Radio Station should report it to the responsible organizations in accordance with The Procedure for an Emergency Response Center in Taipei Harbor.
- (5) The procedure for an emergency is as same as that during office hours.
- (6) Assign personnel to give assistance depending on the actual situation.
- VI This regulation will enter into effect as of the date of promulgation.
