- Business Cyclical Conditions

II. PROSPECTS

III. POLICY INITIATIVES

I. CURRENT DOMESTIC SITUATION

Economic Growth

⇒ In 2007, The economy is preliminarily estimated to have grown 5.7%.

⇒ Thanks to the brilliant performance in exports, industrial production and corporate profits, the Taiwan's economy grew 6.4% in the fourth quarter of 2007, much faster than previously forecasted.

Real GDP Growth (Change from a year ago)

	Economic growth	Domestic demand								Net foreign demand

CURRENT DOMESTIC SITUATION

Domestic Investment

- ⇒ In the fourth quarter of 2007, the 2.4% fall in private investment is attributable to a 2.0% decline in imports of capital equipment and a decrease in construction work, despite a 4.0% growth in manufacturing investment goods.
- ⇒ For 2007 as a whole, gross fixed capital formation rose 2.4%, including a 3.4% rise in private investment.

CURRENT DOMESTIC SITUATION

Major trade partners

- ⇒ China (including Hong Kong) and ASEAN have become increasingly important trade partners to Taiwan since 2000, though trade with these two regions has grown more slowly in the last four years. Japan has remained Taiwan's largest supplier of imports, despite a narrowing share.
- ⇒ Export shares of the United States, Europe and Japan have narrowed as those of China (including Hong Kong), and ASEAN have increased.

2008 Jan	10,802	58.3	411	3.80	9,854	1.6

CURRENT DOMESTIC SITUATION

Prices

- ⇒ In January 2008, CPI rose 3.0% from a year ago, with increases in food, oils, taxi fees, and Chinese herbal medicines, offsetting continued decreases in electronic products. Core prices (excluding fresh food and energy prices) climbed 2.7%.
- ⇒ WPI were pushed up by 10.2% ,reflecting the rising prices of crude petroleum and natural gas, petroleum & coal products, basic metal, and chemical material.
- ⇒ In 2007, CPI and WPI increased 1.8% and 6.5%, respectively.

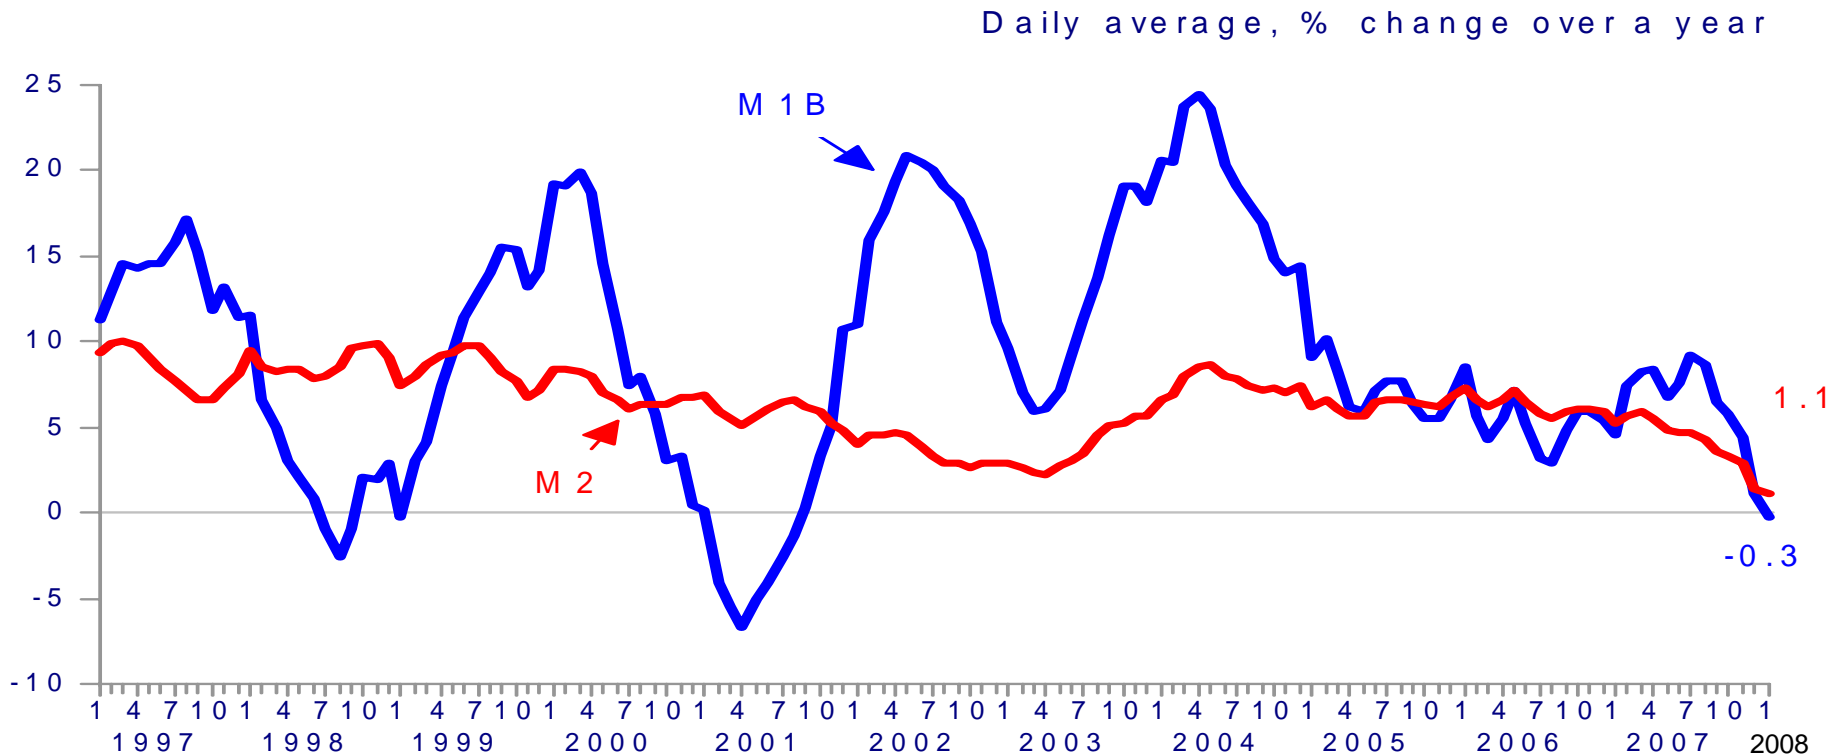

Source: Directorate General of Budget, Accounting, and Statistics.

CURRENT DOMESTIC SITUATION

Money Supply

- ⇒ In January 2008, M1B decreased 0.3% from a year ago, while M2 grew 1.1%.
- ⇒ For 2007 as a whole, M1B and M2 expanded 6.4% and 4.3%, respectively.

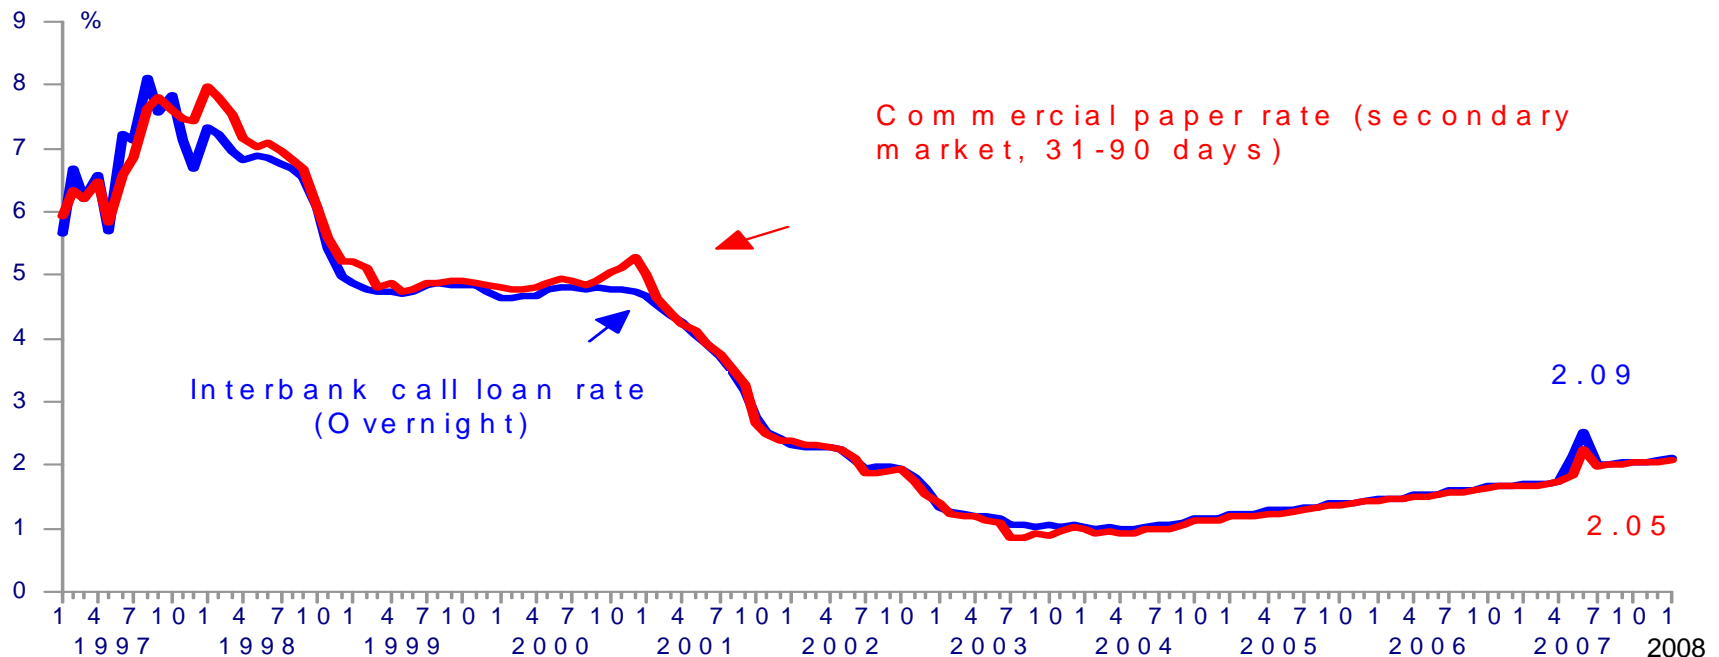

Source: Central Bank of China (Taiwan).

CURRENT DOMESTIC SITUATION

Short-term Interest Rates

- ⇒ Since late May 2007, both long-term and short-term market interest rates have trended up, as tight funding conditions prompted banks to adopt a cautious attitude towards funds operations. Commercial paper rate and interbank rate recorded 2.05% and 2.09%, respectively, in January 2008.
- ⇒ In 2007, Commercial paper rate and interbank rate increased 1.9% and 2.0%, respectively.
- ⇒ The rediscount rate was raised to 3.375% in December 2007, from 3.25%.

Source: Central Bank of China (Taiwan).

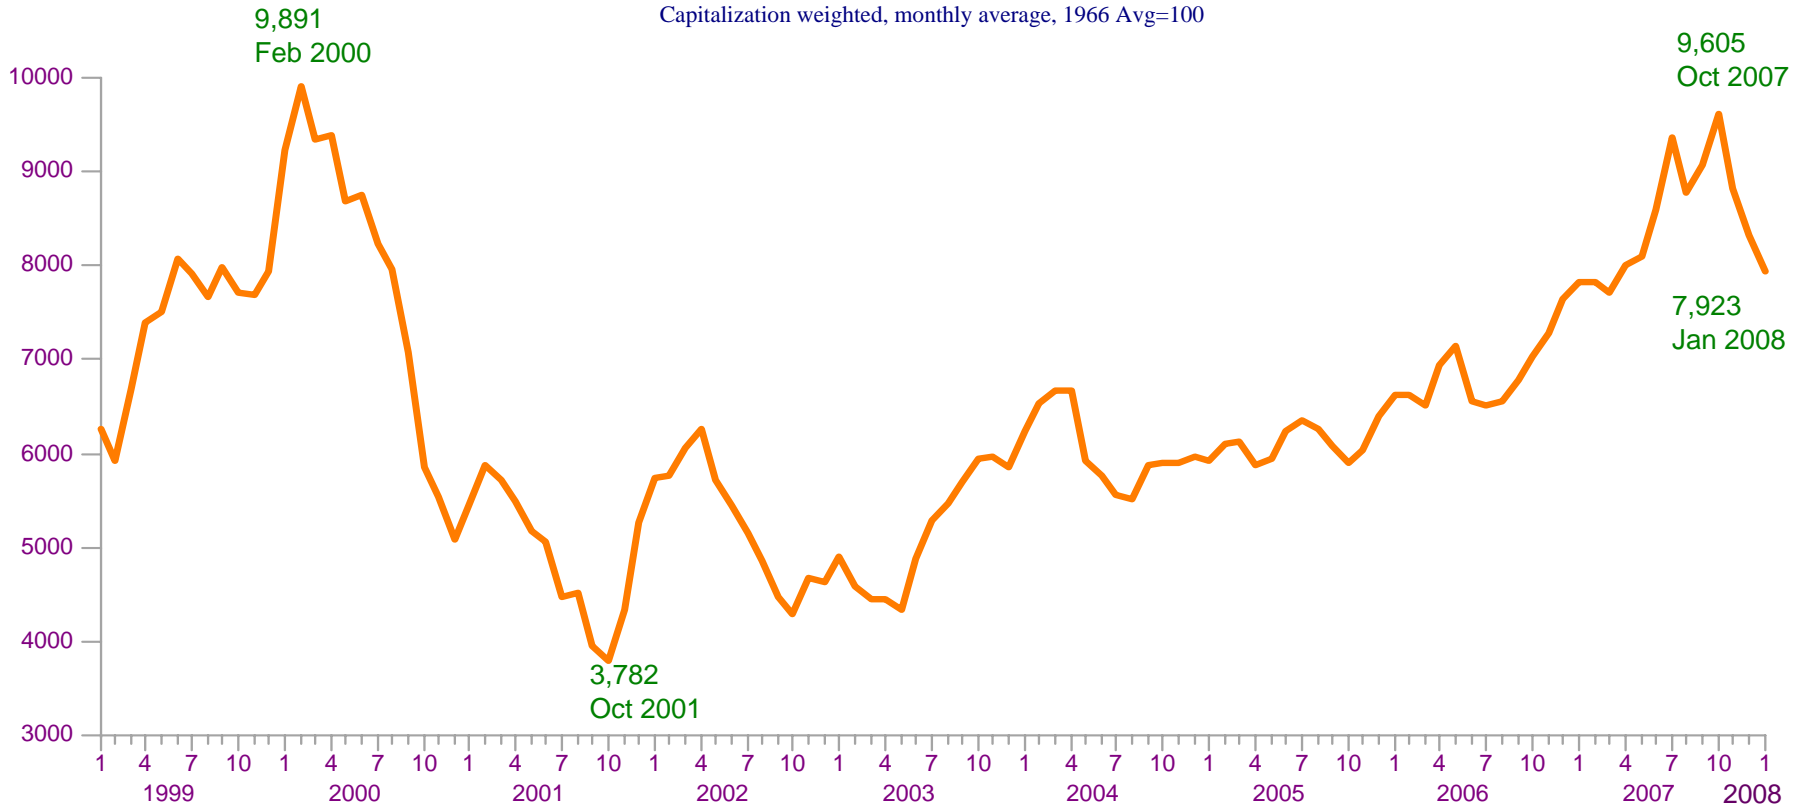

CURRENT DOMESTIC SITUATION

Stock Price

- ⇒ In January 2008, stock exchange index rose 1.4% from a year ago.
- ⇒ In 2007, stock exchange index stood at 8,510 points, increasing 24% from the previous year.

CURRENT DOMESTIC SITUATION

Composite Leading Index (Annualized 6-month rate of change)

Composite Coincident Index (Trend adjusted)

II. PROSPECTS - 2008

- ⇒ Although the turbulence in the international financial markets has only very limited direct impact on Taiwan's financial markets, the tightening effect remains a source of threat to the overall economy.
- ⇒ Taiwan's economy is forecasted to grow 4.32% in 2008, with GNP amounting to US\$428.1 billion and per capita GDP reaching US\$18,042.
- ⇒ Because global economic prospects are becoming less buoyant, exports will be anticipated to mildly increase in 2008, growing 6.1%, supported by sound economic situation in emerging markets. Induced by export expansion, imports will be able to increase 6.3%.
- ⇒ Several factors will continue to help sustain private consumption growth at the rate of 2.9% in 2008: the continued improvement in the job market, a further increase in social welfare transfers, and the increasing cash dividends provided by prosperous corporate profits.

II. PROSPECTS - 2008

- ⇒ Despite the completion of aircraft replacement by private airlines and a switch to more cautious investment approach by foundry manufacturers, private investment is expected to increase 3.3% in 2008, thanks to the newly constructed investment plan from some flat panel display manufacturers, the accelerated implementation of government-led urban renewal and rural reconstruction projects. Limited growth is foreseen in government investment, while positive growth is anticipated in investment by public enterprises.
- ⇒ Inflation pressures from international oil and commodity markets are forecasted to subside in 2008. As a result, WPI is estimated to be between 2.4% and 7.4% yoy by major research institutions. Since rising cost of raw materials have added to consumer price inflation pressure gradually, CPI inflation will not be below 2% until the second half of 2008. However, with stable prices of durable consumer goods and services, CPI is likely to see a moderate increase of 2.0% for the whole year. The government will keep alerting about price risks to achieve the target of below 2% inflation.

FORECASTS FOR TAIWAN'S ECONOMIC GROWTH

III. POLICY INITIATIVES

- The socio-economic environments at home and abroad have changed rapidly in recent years, with globalization intensifying international competition, and the problems of population aging and a low birth rate emerging in Taiwan. To address these challenges and act upon the conclusions of the “Conference on Sustaining Taiwan’s Economic Development” (COSTED), the Executive Yuan has formulated the “Economic Development Vision for 2015” and mapped out its “First-Stage Three-Year Sprint Program” for 2007~2009.
- This initiative involves the re-examination and adjustment of socio-economic systems and development directions, with the aim of advancing toward a “prosperous, just, sustainable and beautiful Taiwan” in 2015 as the new vision and target of efforts for national development. It will be implemented in stages under three sequential “Three-Year Sprint Programs.”

Taiwan's Image for 2015: a Beautiful Land of Prosperity, Justice, and Sustainability

Creating a prosperous economy

With per capita GDP at US\$30,000, Taiwan to be known for its leading-edge R&D capabilities and top-notch manpower resources, attracting global flows of capital, goods and information for combination and value adding in Taiwan.

Prosperity

Justice

Sustainability

Caring and just society

All of the people sharing the benefits of economic development, no ethnic, regional or rich-poor divisions in society, and everyone able to enjoy equal dignity of life and necessary safeguards of their security.

Sustaining a green environment

With sustainable development established as national consensus, and having ample healthy, high-quality living facilities, all the people can enjoy a comfortable quality of life and congenial eco-environment on Taiwan.

A Prosperous Economy

- **Leading-edge innovation ability**
- **Outstanding Taiwan image**
- **Top-notch manpower resources**
- **Booming emerging industries**

2006~2015

1996~2005

- ◆ **Average annual GDP growth of 4.5%, derived from:**
 - Labor input contribution 13.3%
 - Capital input contribution 53.3%
 - Technical progress contribution 33.4%

- ◆ **Average annual GDP growth of 5.0%, derived from:**
 - Labor input contribution 12.0%
 - Capital input contribution 36.0%
 - Technical progress contribution 52.0%

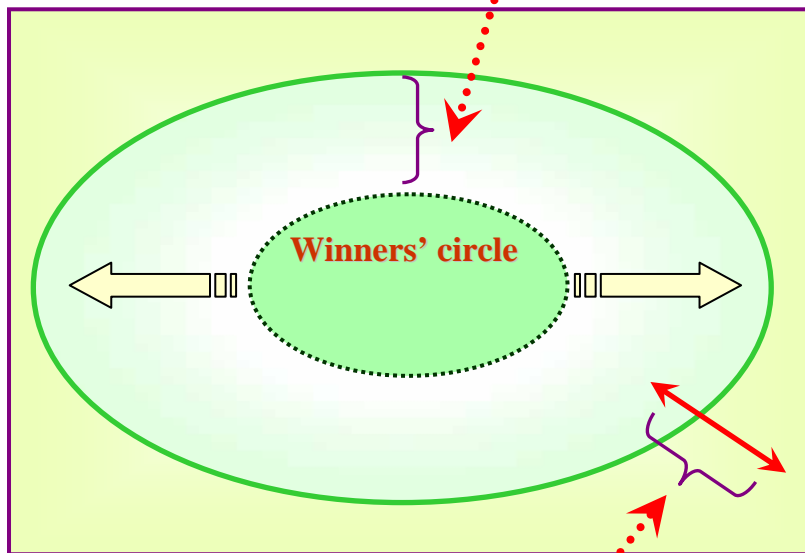

⇒ **Innovation and value-added become the main driving forces of economic growth**

Caring and Just Society

- ◆ Warm solicitude for welfare
- ◆ Dignified safeguards of life
- ◆ Sound child-raising environment
- ◆ Balanced urban-rural development

Targets and Outlook for 2015

Expanding the winners' circle and bring more outsiders inside the circle

Reducing the gap between the inside and the outside of the circle

Warm solicitude for welfare

- ◆ Under a sustainable, comprehensive social safety net, the elderly, poor, disabled, new immigrants, and other disadvantaged members of society will be warmly cared for by the government, and the gap between the income of the top and bottom quintiles will be reduced below a ratio of six.

Dignified safeguards of life

- ◆ Under comprehensive national pension, medical protection, and long-term care systems, full safeguards will be provided for the people's dignity of life.

Sound child-raising environment

- ◆ With the provision of maternal and family protection, education benefits, employment promotion, and other such measures, the people's needs for having, raising and educating children will all be safeguarded; the unemployment rate will be kept below 4%, and the female labor-force participation rate will rise to over 50%.

Balanced urban-rural development

- ◆ The urban-rural divide will be narrowed, and cities and counties, main and offshore islands alike, will all be able to enjoy the same economic opportunities, educational resources, public services, and medical care.

Income Gap	2003	2004	2005
Top quintile of income distribution as a multiple of the bottom quintile	6.07	6.03	6.04
Gini concentration coefficient	0.343	0.338	0.340

Sustainable Green Environment

Targets and Outlook for 2015

- ◆ Closeness to water
- ◆ Rapid and convenient transport
- ◆ High quality of life

- ◆ Flood control measures will achieve conspicuous results in effectively protecting 600 square kilometers of flood-prone land.
- ◆ A safe water supply will be assured, homes and industry will have ample water to use, and the tap-water connection rate will be 94%, the same level as in advanced countries.
- ◆ Sewerage systems will be extensively in place, and the wastewater treatment rate will reach 50%.
- ◆ Green infrastructure will be prevalent, with the development of 47 river systems, and every county and city having at least two waterside living environments, to provide nearby residents with high-quality scenic ecological waterside space.

- ◆ Everyone will be able to enjoy fast and convenient transport services. The high-speed railway, MRT systems, and regional road networks will mean that all of Taiwan is just a day trip from home.
- ◆ International seaports and airports and major science parks will be just ten minutes away from expressways.
- ◆ Main cities will be just one to two and a half hours apart, and it will take only 30 to 60 minutes to reach regional centers from within metropolitan areas and country towns.

- ◆ There will be ample amenities such as cultural centers, sports stadiums, parks, green footpaths, and bicycle trails, and people will be able to fully enjoy the same level of high-quality living facilities as in advanced countries.
- ◆ International-standard performance venues and national games or competitive sports arenas will be built island-wide, with 90% of them reachable within one hour.
- ◆ The island-wide information super-highway will be complete, with broadband coverage reaching 90%. People will be able to enjoy economic and high-quality e-living.
- ◆ Successful land restoration will reduce deaths and injuries from landslides to almost zero.

Targets up to 2015

To give concrete manifestation to the policy implementation theme of “big investment and big warmth” and realize the national development vision of “a prosperous economy, a just society and a sustainable environment,” after giving consideration to the external and internal conditions previously described, the government has set the following macro-development targets for 2015, which it will seek to forge into a broad public consensus and spare no effort to achieve:

- Taiwan to be a unitary “living circle” in which no place is more than **a day trip** away.
- The CPI to rise by no more than **2%** a year.
- Per capita GDP to reach **US\$30,000** (US\$20,000 in 2009).
- The unemployment rate to be kept below **4%**.
- The economic growth rate to be sustained at an average of **5%**.
- The gap between the top and bottom quintiles of income to fall below a ratio of **six**.

First-Stage Three-Year Sprint Program

1. Industrial Development Package

Issues Faced

Private investment momentum needs to be strengthened

Domestic industry urgently needs to be transformed and upgraded

Emerging industries need to be developed as soon as possible

The imbalance of industrial development urgently needs to be remedied

Planning Concept

- ◆ Promoting high-value output in all industries, and upgrading industries across the board.
- ◆ Promoting Taiwan brands, and creating profit via product differentiation.
- ◆ Integrating manufacturing and services, and boosting industrial capacity.
- ◆ Improving energy efficiency, and pursuing a win-win-win situation for energy, industry, and environmental protection.
- ◆ Emphasizing social justice and balanced industrial development.

Targets

	2005	2009	2015
1. Industrial Structure (%)			
Agriculture	1.7	1.5	1.2
Industry	25.0	24.1	22.7
Manufacturing	21.4	20.8	20.0
Services	73.3	74.4	76.2
2. Real growth rate (%)			
Agriculture	-8.1	1.0*	1.0**
Industry	5.9	4.2*	3.9**
Manufacturing	6.5	4.9*	4.3**
Services	3.5	5.7*	5.5**
3. Energy efficiency			
Energy productivity (NT\$/1 liter oil equivalent)	108.7	116.3	-
Energy intensiveness (1 liter oil equivalent /NT\$1,000)	9.2	8.6	-

*average for 2006-2009

** average for 2005-2015

2. Financial Markets Package

Issues Faced

Lack of large and good internationally competitive financial institutions

Direct finance ratio on the low side

Inability to provide appropriate financial services in response to population aging and low birth rate

Bond market still insufficiently internationalized

Institutional investment ratio still too low, impacting stock market stability

Slowing trend in number of companies listing on stock and OTC markets

New financial product tax regulations inconsistent or ill-matched to sound financial market development needs

Planning Concept

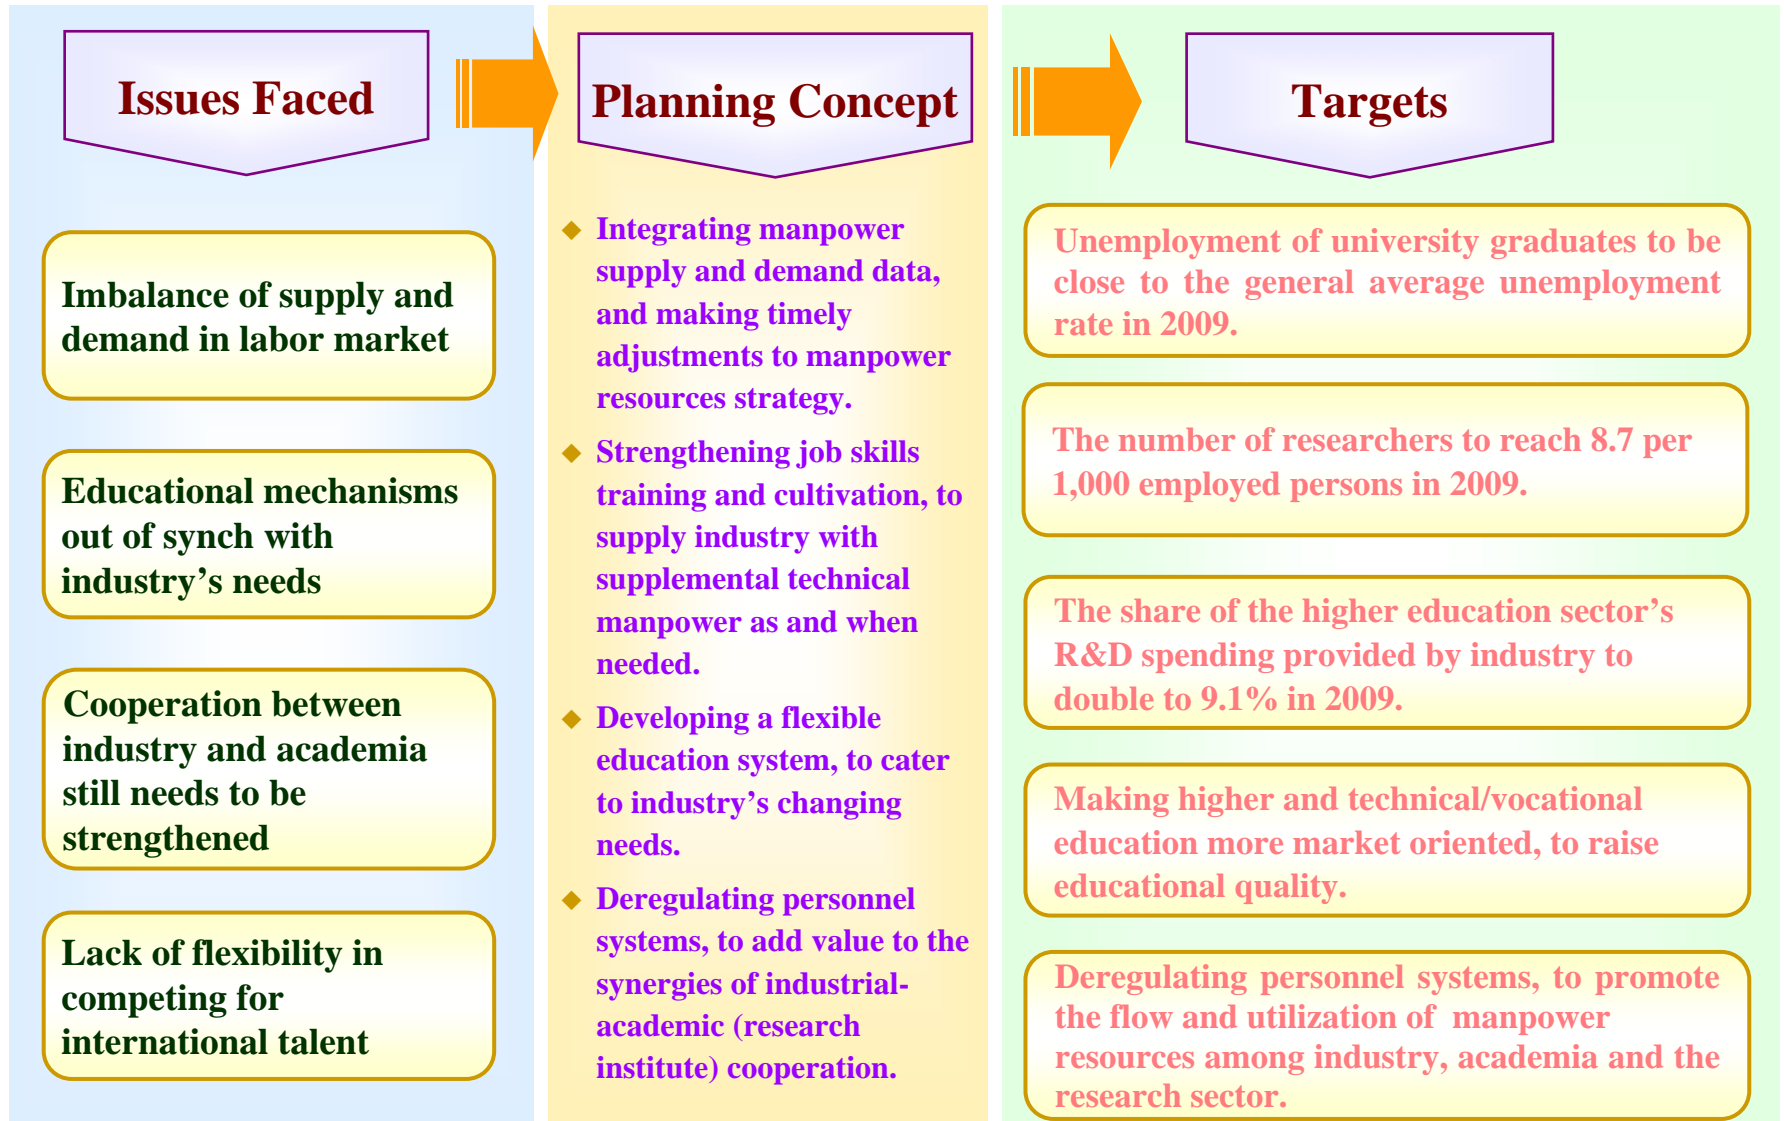

- ◆ Analysis from the retail and institutional investor demand side and the financial institution supply side as the basis for adjusting the financial market structure and strengthening financial industry composition, competitiveness, and product innovation capability, to provide customized financial services, and make this a core value of planning for 2015.
- ◆ First-Stage Sprint Program with main theme of building infrastructure for a financial services platform that can meet needs and generate benefits on both the supply and demand sides.

Targets and Vision

	2007	2008	2009
Market ratio of government-shareholding banks	Gradual reduction, with prioritized divestment of non-leading financial institutions		
Banks' overseas earnings (US\$ billions)	4.6	5.5	6.8
OBU non-financial institution deposits (US\$ billions)	22.7	25.0	27.5
Fixed-income products market transaction volume (US\$ billions)	10,769	12,308	13,846
Securitization market outstanding issuance value (US\$ billions)	9.2	11.4	13.8
Annuity insurance premium income (US\$ billions)	2.0	2.1	2.2
Average life insurance cover (US\$)	27,692	29,231	30,769
International bond market	Accumulating to US\$3.1 billion in 2009		
Foreign and institutional investor stock market trading and stockholding ratios	Foreign investors 20% and 35%, institutional investors 30% and 60% at year-end 2009		
No. of companies listed on stock + OTC markets	Total addition of 250 companies over three years		

Regional financial services center

2. Industrial Manpower Package

4. Public Construction Package

5. Social Welfare Package

Funding Requirements of the Five Packages (2007-2009)

Unit: US\$ million

Five Packages	2007	2008	2009	2007~2009 Total
Industrial Development	1,785.0	2,298.6	2,764.3	6,847.9
Financial Markets	1.0	1.0	1.0	3.0
